

English

The Ugly Duckling / Swan Lake

During this half term the children will be using these texts as stimuli for writing diaries, stories and persuasive texts and then review their writing.

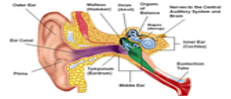

Maths

In Maths, the children will be consolidating and developing their understanding of shape and measure, which will include the mathematical concepts of perimeter, area, converting between different units of measure and capacity; then finally they will be studying statistics, with an emphasis on solving problems.

Science

Sound

In this module, the children will be learning how sounds are made; how the ear works to enable us to hear and will also be planning various experiments to investigate patterns between volume and pitch. Any materials you could donate that could be used for your child's soundproofing experiment will be gratefully received.

Computing

We are Meteorologists

This unit brings together data measurement, analysis and presentation, as the children

P.E.

Athletics

The children will be perfecting their athletics skills ready for Sports Day. This includes running, jumping, and throwing.

French

The objectives for the French lessons are: To know names of animals from 'Carnival of the Animals'; To describe animals using colours and other adjectives; To describe animals and their movements using adverbs; Revision of time; To use nouns and adjectives to describe habitats.

R.E. & Virtues

What does it mean to be a Sikh?

This half term, the children will be learning about the key beliefs and teachings of the Sikh religion and how they affect how Sikhs choose to live their lives.

The children will also study the virtue of enthusiasm.

Sensational Start:

Design and deboss your own chocolate bar

Extraordinary Extra:

Music Workshop

Fabulous Finish:

Making your own chocolate bar

Theme

The children will be covering the following themes:

Music Makes the World go Around: During this lively unit, children will be exploring a range of music from around the world. They will learn how to compose music by adding their own stylistic nuance, explore historic and cultural contexts and perform a chosen piece of music and dance.

Chocolate: The children will be exploring a fun-filled unit of where and how chocolate is made. They will be exploring different factors of chocolate like fair-trade, Quakers and history of the Aztecs.

International Week: The children will be experiencing different activities and tasks set by teachers in an international theme.
