Carnivals

In this theme Year One children will learn about the four countries and capital cities of the United Kingdom and its surrounding seas. Children will learn to use basic geographical vocabulary to refer to physical and human features. They will use world maps, atlases and globes to identify countries, continents and oceans studied at this stage.

Music around the world

In Music Around The World children are going to be exploring music from different countries as well as looking at their locations and geographical characteristics. Children will experiment with different instruments and rhythm.

For our Fantastic Finish children will take part in a Year 1 talent show and present what they have learnt to their peers.
